# Vanitha P

PROFESSIONAL SUMMARY

I am an experienced IT professional with 5+ years of experience in software development and systems engineering. I have a passion for working on complex technical problems and have a proven track record of successfully developing projects from concept to launch. My strongest skills lie in software design, architecture, scalability, and system performance. I also possess strong organizational skills, excellent communication skills, and the ability to work independently and within teams. My greatest achievement to date has been leading a project that increased customer satisfaction by 20%. I pride myself on my technical problem-solving abilities, my ability to remain organized in high-pressure situations, and my enthusiasm for learning new technologies.
